DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-17 and 26, drawn to a method of forming a hose.

Group II, claim(s) 18-25 and 27, drawn to a method for forming a hose.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Unity of invention is lacking because USP 3859408 by Voss et al. teaches that it was known in the art at the time of the invention to have a method for forming a hose into a desired shape comprising the steps of cutting the hose into a desired length ("cut into predetermined lengths" Voss Column 1, lines 18-19), drawing said desired length of the hose into a forming tube having an inner surface defining a desired tube shape after the step of cutting the hose ("positioned within a mold cavity" Voss Column 1, line 20), curing said desired length of the hose into said desired shape ("cure the rubber" Voss Column 1, line 25), and removing the hose having said desired shape from said forming tube ("removed from the mold" Voss Column 1, line 28).

3. A telephone call was made to Karin Butchko on 1/23/09 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to MARTIN ROGERS whose telephone number is 571-270-7002. The examiner can normally be reached on Monday through Thursday, 7:30 to 5:00, and every other Friday, 7:30 to 4:00.
